

### **SOL-VS-DS**

**Article number.: 235685**

---

Windows based client  
Rendering up to 24 Streams  
2x 4k DisplayPort

---

Incl. Pre-installed Client-Software  
Silent fans  
Supports resolutions up to dual 4K  
Dual display ports 1.2 monitor outputs  
External power supply  
24/7 operational  
Optional VESA mount available (100x100mm)

The thin client serves as a proficient client platform for video surveillance applications. Engineered for optimal performance, it can effectively render up to 24 IP video streams, ensuring compatibility with a comprehensive range of camera manufacturers present in the industry.

The client's design facilitates secure attachment to a monitor by ordering the optional VESA mount accessory. The device does not support video data storage, the appliance is exclusively tailored for real-time monitoring purposes, making it particularly suitable for scenarios such as production line oversight.

## Specifications

CPU:	Intel Celeron J4105
RAM:	4GB DDR4
Storage:	128 GB SSD M.2
GPU:	Intel UHD Graphics
Video ports:	2x DisplayPort 1.2
Network:	2x 10/100/1000Mbps LAN 1x WLAN
Operating system:	Microsoft Embedded Windows 10 IoT Enterprise 2021 LTSC Entry ePKEA
Front ports:	2x USB 3.2 Audio
Dimensions (WxHxD):	147 x 36 x 165 mm
Warranty duration:	2 years
Accessories:	Included: External 70 Watt power supply Optional: VESA mount 100 x 100mm – Article No.: 235686
