The QM-Series 4K UHD signage display offers clear, high-resolution visuals in a slimmer, lighter design than its predecessor. It features improved brightness and a non-glare panel for better visibility in different lighting conditions. It is built for reliable, long-term use, supporting both portrait and landscape orientations, and features Anti-Burn-in™ technology to prevent image ghosting. Built-in USB media playback allows simple content delivery directly from a USB drive, while dual HDMI ports and a USB Type-C input support a wide range of media sources. It is ideal for retail, hospitality, and other public environments.
